WHAT A DIFFERENCE YOUR GIVING HAS MADE TO FAMILIES IN MALAWI AND ZAMBIA

In 2018/19 Every Home Global Concern's Food Security & Income Generation Program in Malawi and Zambia gave **3,921** people in 410 families a reason to smile.

Because of the excellent work done by our partners Malawi EHC and Zambia EHC in the past, their governments are choosing the most destitute communities for EHGC to work in. By training 904 farmers and providing tools, seed and livestock; by training and equipping families to build 62 wells and 334 toilets; by making a way for women, children and the disabled to be involved; and through the provision of pigs, chicken and goats to breed and "pass-on" to other farmers, there has been a dramatic shift in the well-being of these 3,921 people. Agricultural yields and food security have improved by 87.3% in Zambia and 90% in Malawi with 386 families now eating 3 meals and 4-6 food groups a day. Malnutrition has decreased in the project areas by 2.2% in Zambia and

by 95% in Malawi. Conservation farming practices, tree planting and food banks have enabled farmers to be food secure despite dry spells during the year. People now have access to safe clean water and through the building of toilets and training in hygiene and sanitation practices, 3,202 people are experiencing improved health. The distribution of 1,000 mosquito nets in Malawi resulted in a decrease of malaria cases by 67% with 1,307 people being malaria-free for a year. 794 people have been trained to access financial services with 598 families in Malawi increasing their yearly income from US\$68.92 to US\$103.65. An independent evaluation of this Food Security/Income generation program will take place in 2020.

**THANK YOU FOR MAKING SUCH A
DIFFERENCE TO PEOPLE IN NEED**

Mr Mkwala and his family are **no longer living with shame** as their new toilet means they do not have to use the bush for a toilet any more. Now they do not suffer from cholera or spend days in hospital with multiple diseases - their health has been restored! Mr Mkwala said, "I no longer have to dig a new toilet every time the rains come as this one will last 50 years. Thank you, thank you, thank you... **this has changed our lives!** "

HELPING THE DISABLED

Gilead is a 19 year-old young man in Zambia who has Down's Syndrome and is a member of the local youth club. He was chosen to take part in the livestock pass-on program and received three point-of-lay chickens (ready to lay eggs) and one roaster chicken (3-5 months old) from the project.

He said - ***"I didn't know that keeping chickens could be a source of income and nutrition for me and my mother. I was given three improved chickens by the project along with three other people living with disability in my community and later trained in livestock and egg production as a business. I tried the first time but all my eggs were stolen but I did not give up but improved the security around my chickens."***

The project continued monitoring Gilead's progress until his chickens started to lay eggs. Gilead kept some eggs for incubation, sold some eggs and used some for home consumption.

Gilead said ***"I now know that chicken keeping can be a good business. I have improved my nutrition status and at least have some money though not enough to buy what I want."*** Gilead explained that he expects the venture to grow as he sells more eggs and eventually starts selling live chickens to the rest of the community.

It's clear that EHGC's efforts towards empowering people living with disability are already generating effective results despite being the first year of giving livestock to the community in Zambia. The future for people living with disability as well as their guardians has quickly become bright and promising, helping people with disability to break the cycle of poverty and support themselves and their families,

THANK YOU FOR GIVING FAMILIES IN INDIA & BANGLADESH A REASON TO SMILE

The Child Sponsorship program in India and Bangladesh has been effectively giving hope to some 1,200 children and their families each year. As our emphasis is on developing whole communities, the program includes 5 free schools, school materials, uniforms and bags, a free lunch each day, clean water and sanitation, opportunity for exercise, health education for children and their parents and an opportunity for teenagers and adults to earn income through tailoring classes, with assistance to the poor in purchasing sewing machines and rickshaws.

THANK
YOU FOR
GIVING TO HELP
PRISONERS
AND THEIR
FAMILIES

WHAT A DIFFERENCE YOUR GIVING HAS MADE TO FAMILIES OF PRISONERS IN ETHIOPIA

In Ethiopia, when a woman is imprisoned, so too are her children! In partnership with **Eloi Ministries**, EHGC is making a difference by providing health and sanitation needs, increasing literacy and education for the children of prisoners and providing skills training for adults. In **Butajira Prison** prisoners were trained in concrete block production, sewing and hairdressing and 3 computers were donated for the inmates. In **Worabe Prison** machinery for welding and the making of furniture was donated with 10 prisoners trained in their use. Funds for the construction of a kitchen were also provided. In **Wolita Prison** machinery and training were provided to assist 7

prisoners in making blocks and concrete. In **Durame Prison** a sewing machine and beauty salon equipment has resulted in increased income for the prisoners. In **Alaba Prison** training and equipment for a beauty and hairdressing salon has been provided along with maintenance of a chapel in the prison. In **Debrebrhane Prison** a welding machine for metal work has been donated. In **Kombolcha Prison** a grinding machine is generating income for the prisoners. In **Wolidiya Prison** a generator is providing much needed electricity. In **Gilgel Beles Prison** the Kindergarten, wood machine and sewing machine are running smoothly.

What's next.....?

As we have evaluated the programs and impact of the Overseas Aid Program in the 2018-19 year, we are encouraged by the difference we have been able to make in the lives of ordinary people who have not been as blessed as we are.

We have seen families who were struggling to produce and eat enough food now healthy & eating 3 meals a day.

We have seen uneducated women learn a skill and earn income, increasing their sense of worth and value to their families.

We have seen family men who in desperation, had to send their children to work, now able to send them to school, knowing that they will have a better future.

We have seen men, women and children who were suffering from illness, HIV Aids and water-borne diseases and who were too sick to work or go to school, now healthy and strong with little or no disease because of an increase in clean water, toilets and good hygiene practices.

We have seen treated mosquito nets resulting in fewer people dying with Malaria.

We have seen ordinary people like us who had no chance of a better future find there is a future for them and their families.

We have seen people given a chance for a happy life!

THIS IS THE SORT OF IMPACT YOU ARE MAKING WITH YOUR GIFTS AND PRAYER AND WE WANT TO THANK YOU FROM THE BOTTOM OF OUR HEARTS.

What's next?

More of the same as we involve ourselves in the lives of the poor and disadvantaged in Malawi, Zambia, Ethiopia, Bangladesh, India and Nepal.

As we move forward we will evaluate what we are doing and seek continuous improvement in the way we work, both here in the office and overseas with our partners. We will seek to make, not just a difference for now, but a difference that will be sustainable into the future.

Thank you for being such a wonderful part of making this impact in people's lives.

2019
REPORT FROM THE
BOARD TREASURER

Ken L Koh, CPA

MAKING SENSE OF THE NUMBERS ...

The trend over the last 3 years is that total income has been fluctuating up and down between \$1.7 million and \$2 million from year to year, with the 2019 year slightly higher than 2018. The last 3 years have shown overall losses each year, although the loss in 2019 is smaller than for previous years. Administrative and fundraising costs are reducing while at the same time, expenses for overseas support and aid is increasing.

The ministry is still in a good financial position to meet current financial commitments; generally income and expenses are fairly steady from year to year.

Every Home Global Concern satisfies the requirements of the Australian Charities and not-for-profits commission Act 2012 and meets the standards set by the Australian Charities Commission.
